

Streamline management of all laboratory and medical equipment, parts, training manuals, contracts, depreciation, service history, calibration and validation reports. Labforce is the ideal solution to consolidate all your information. Cost effective and user friendly, our proprietary software system will revolutionize how you manage your equipment.

**Let us take care of ensuring your equipment information is complete, accurate, and up to date!
Includes data management for up to 150 pieces of equipment.**

Data management

➤ **Entering equipment data**

Recording new equipment or updating equipment information (e.g. room locations, Tag IDs, equipment relationships)

➤ **Entering Service Histories**

Entering calibration data, validation data, and repair details. All pdfs of calibration reports and work orders are accessible on-line.

➤ **Entering Equipment Value**

Keeping record of when equipment was purchased, the purchase price, and all repair records associated so you can make data-driven decisions when it comes to future repairs or purchases.

➤ **Maintaining Documentation**

Equipment manuals, packing slips and any other relevant information is held digitally in the cloud, associated with the related equipment.

Benefits

➤ **Information consolidation**

Go paperless and never lose another report! Keep track of all your service reports, including calibration, maintenance, and validation records, with on-line access provided through Labforce. Available 24/7 and accessible from anywhere with internet access.

➤ **Improved efficiency and organization**

Using an intuitive, user-friendly navigation structure, Labforce can maintain a list of parts used for repair services and preventative maintenance, as well as a list of preferred vendors for ease of future ordering.

➤ **Maintain compliance**

Keep information valuable to auditors, the finance team, QA and senior management all in one place! Generate reports at the click of a button.

Labforce is fully customizable according to your equipment needs. This software will be the best lab assistant you've ever had!

Regular Price: \$6000/year

Conference Special: \$3000/ year (only \$250/month!) or with the purchase of a service contract: \$1500/year. Includes two user licenses and 1 report generation license.
